

Sony Alpha A350 Eye Cup Replacement

If your eye cup is torn or missing, the best option may be to replace it.

Written By: Sydney Duncan

INTRODUCTION

In the event that your eye cup is damaged or lost, you may need to replace it. This guide will show you how to replace it with a new one.

TOOLS:

- [Heavy-Duty Spudger](#) (1)
 - [Phillips #000 Screwdriver](#) (1)
-

Step 1 — Eye Cup

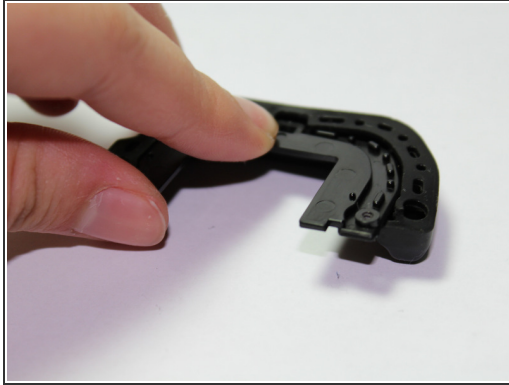

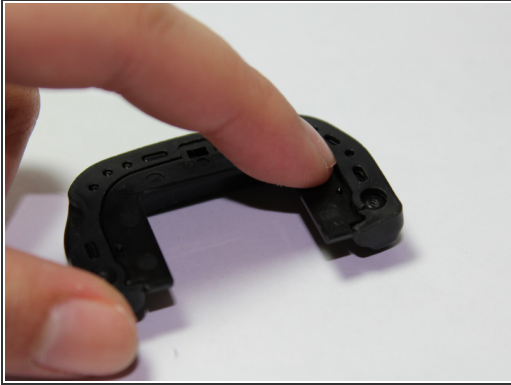

- Identify the bottom of the eye cup
- Using the heavy duty spudger, push the eye cup upward to remove it from the camera body.

Step 2

- Flipping to the back side of the eye cup, unscrew the two JIS 000 screw from each side.
- Remove the back side of the eye cup.

Step 3

- Push down on the hard plastic part of the eye cup and remove it from the cushion.

To reassemble your device, follow these instructions in reverse order.
